

FARM SHOP PRICE LIST – March 2012

Our shop is located at the front of the holiday complex alongside of the reception. We opened our shop last year in order to allow Middlewick guests to enjoy some of the amazing food that Somerset has to offer. Our price list does not contain everything we have in store as we try to buy as many seasonal products as we can. We also grow a lot of our own vegetables and fruit here at Middlewick which we sell when we can. The Middlewick chickens, that you will see wandering around the gardens, always have plenty of extra large eggs ready for you to try. We try to always have a selection of local cheeses, of which there are many, as well as other local specialties. We are happy to take orders for food and will make sure it is in your cottage in time for your arrival. If we know what time you are arriving we are also happy to put one of our ready meals in the oven for you to be ready for your arrival.
